

I am currently the Vice Chairman of the Calvert County Republican Central Committee. I believe that the primary objective of the Central Committee is to find qualified candidates, raise funds and support all Republican Candidates during the primaries and general elections.

I have lived in Calvert County over 25 years. I am married with 3 sons and 8 grand children. My vocation started as a U.S. Navy veteran followed by a 22 year career with the Washington, DC Police Department as a Detective Lieutenant. After retirement I founded a security company (Sting Security) with a handful of employees. When I sold the company in 1998 it had hundreds of employees working throughout DC, MD and VA.

This business and management experience acquired through both careers has been very beneficial to the Calvert County Republican Central Committee. For example, when we were sworn in we had to assume a large deficit. Through the diligent work by all board members, we are currently in the black and able to help support all Maryland Federal, State and County Republican candidates.

If re-elected I will continue to maintain this energy and dedication to the Republican Party.
