

I have been a resident of Calvert County since 1987. I am the grandmother of 4 boys, three of which reside in Calvert County. I am currently employed as a Senior Office Administrator for a nationwide insurance company.

My goal, if elected to the Central Committee, would be to assure the residents of Calvert County that the candidates chosen and aided by the central committee would be candidates that reflect the core values of the voters of Calvert County. We need strong conservative candidates to protect, serve and maintain the quality of life that Calvert County residents currently enjoy. We have one of the best school systems in the nation with all four of our high schools placed in the top 1500 of the nation. I would work to maintain this quality of life and I thank you in advance for your vote.
